REVIEW
on the educational program of the specialty 7M01611- History
Pavlodar Pedagogical University named after A. Margulan

The educational program of the master's degree in the specialty 7M01611-History (scientific and pedagogical direction) is developed in accordance with the Model curriculum of EP, the classifier of educational program of postgraduate education (master's degree), the Industry National Qualifications Framework, the professional standard of teacher, the Dublin descriptors.

The structure of the educational program is balanced and forms universal competencies necessary for work in the field of education. The disciplines of the modules are selected taking into account the current state of historical science and reflect the most promising directions of its development. In addition, the list contains disciplines with methodological content that reflect the processes of modern Kazakhstani education.

As a result of mastering this educational program the academic degree of Master is awarded. The study of the program is possible for two years.

In agreement with employers the educational program includes additional competences that contribute to the training of professionals in accordance with the demands of the labor market and focused on the development of such abilities as integrate knowledge and cope with complex issues, formulate judgments based on incomplete or limited information, which involves consideration of social and ethical responsibility associated with the use of their knowledge and judgments.

In general, the educational program for the specialty 7M01611 - History (scientific and pedagogical direction) is built logically and systematically, observing all the rules and regulations imposed by the SES. As a result of its master's degree will be able to work in the field of Kazakhstani education at different levels
