

Ministry of Education and Science of the Republic of Kazakhstan
Pavlodar State Pedagogical University

DEVELOPMENT PLAN
Educational program «6B01521 Physics-Informatics»
for 2019-2023

Approved at the meeting of
EP of HSNS Committee
28.08 2019, protocol 1

1 Text analysis

The development plan of the EP is formed taking into account the availability of financial, information, labor, material and technical resources, and is based on the mission of the university in accordance with the principles, goals, and objectives. The tasks for the implementation of the EP are discussed annually at the meeting of the Higher School of Economics, approved by the Educational and Methodological Council of the Faculty.

The EP development plan is consistent with the activities of the PSPU Development Strategy for 2020-2024, which is focused on achieving the goals and key indicators defined by the Strategic Plans of the PSPU, the Ministry of Education and Science of the Republic of Kazakhstan, and the State Program for the Development of Education of the Republic of Kazakhstan.

The head of the EP analyzes the results of monitoring and periodic evaluation of the EP development plan, which provides for:

- Changing the needs of society and the professional environment.
- Analysis of student performance.
- Graduation and employment.
- Satisfaction of employers with the quality of training of graduates.
- Compliance of the educational environment and the student support service with the objectives of the EP.
- Satisfaction of students with the content of training in the EP.

In order to fully inform all stakeholders about the results of the implementation of the quality assurance policy of EP 6B01512 Mathematics-Informatics », meetings are held with the invitation of employers and students. Also, modular educational programs and development plans of the EP are brought to interested persons, employers for review through the website of the higher school.

2 Educational program development plan:

No	Events	Term of execution	Responsible persons	Implementation mechanism
