

Expert conclusion
for the educational program 8D01550 (6D011300) – Biology

The educational program 8D01550 - Biology, developed by a team of authors, scientific and pedagogical workers of Pavlodar State University, is presented for examination.

The educational program 8D01550 "Biology" is developed in accordance with the State Educational Standard of the Republic of Kazakhstan, the Professional Standard of the Teacher, the National Qualifications Framework, is coordinated with the Dublin Descriptors and the European Qualifications Framework and is aimed at preparing a PhD in the educational program "Biology".

The relevance of the program is determined by the analysis of the needs of the labor market. The OP passport presents the scope of application, learning outcomes, qualification characteristics, structure, learning strategies, and methods for monitoring learning outcomes.

A special feature of the program development is the study of modern problems of biological education and the research work of the doctoral student, which is focused on the problems of modernization of school education. Working on the topic of the doctoral dissertation, doctoral students expand the horizons of methodology, which will affect the formation of a project-oriented consciousness, which will constantly improve knowledge, skills and abilities and freely navigate in new situations.

The educational program is based on modern scientific achievements, it presents the relationship of learning outcomes with methodological foundations, is characterized by logic, consistency and integrity.

The submitted OP fully complies with the requirements for registration required for such documents. The educational program has sufficient personnel, educational and methodological, information and material and technical support necessary for the training of highly qualified specialists.

Based on the analysis of the educational program 8D01550-Biology, it can be concluded that this program opens up wide opportunities for the training of highly qualified specialists in the field of education.
