to the Bachelor's degree program
6B01900 – Special education
Pedagogy High School

NAO «Pavlodar Pedagogical University» named after Alkey Margulan

The reviewed educational program contains objectives, passport, list of qualifications and positions, qualification characteristics of the graduate, scope, objects, subject, types, functions and areas of professional activity and map of the educational program.

The educational program "Special Pedagogy" (hereinafter referred to as the Program) is developed on the basis of the Law of the Republic of Kazakhstan "On Education" from July 27, 2007 No. 319-III ZRK (with amendments and additions as of 07.04.2018 and current regulatory documents of the Republic of Kazakhstan. The content logic of the educational program is conditioned by the regulatory requirements of the Ministry of Education and Science of the Republic of Kazakhstan and internal regulations of the University.

Forming an educational program, the head of the educational program uses scientifically based approaches to planning, methodological support, and teaching technologies. The resulting academic integrity of normative and training documents ensures effective management of the mechanism of educational programs implementation. The educational program (hereinafter referred to as the Program) provides training of bachelors of special pedagogy with educational trajectories "Logopaedics", "Oligophrenopedagogy". Cooperation with employers is systemic there is a practice of coordinating the content of the educational program with employers in the region; including employers in the state certification commissions, evaluation of employers' satisfaction with the quality of specialists training. The structure of the program allows to obtain integrated knowledge in modules containing interrelated disciplines.

The modular approach is designed to ensure the gradual mastering of the educational program. The most important component of the educational program is educational (pedagogical), psychological and pedagogical, industrial (pedagogical) and pre-graduate practices with subsequent preparation of the diploma work on the basis of schools, colleges of the city and region, which are the bases of practices. The developed educational program "Special Pedagogy" can be approved and recommended for its implementation at Pavlodar Pedagogical University for training bachelors.
